“The Economic Survey 2019-20 builds on India’s aspiration of #Economy@5trillion with its theme of #WealthCreation. This Survey provides evidence to show that ethical wealth creation is an important national service. Those who create wealth are India's wealth! It integrates our old and rich tradition with contemporary evidence to emphasize that ethical wealth creation is a noble human pursuit. The Survey identifies two key pillars for furthering wealth creation in the economy – the invisible hand of markets supported by the hand of trust – and makes specific suggestions for job creation and wealth generation in the economy. I strongly recommend everyone to read the Survey and benefit from its ideas.”

National Vehicle Scrappage Policy 2021

HOW PROCESS WILL UNFOLD

A vehicle older than 20 years, if found unfit or registration certificate is not renewed, will be de-registered

Registered owners to hand over such vehicles to a Registered Vehicle Scrapping Facility with certificate of the vehicles' registration, their PAN details, and other documents

Scrapper to verify records of the vehicles from database of the stolen vehicles and issue a Certificate of Deposit, mandatory for the owner to avail incentives

The certificate once used will be stamped "Cancelled" by the agency

Government will maintain a database of the vehicles scrapped every year

INCENTIVES FOR VEHICLE OWNERS

Scrap value: 4-6% of ex-showroom price of new vehicle to be given to the owner by the scrapping centre

Tax rebate: States may be advised to offer a road tax rebate of up to 25% for personal vehicles and up to 15% for commercial vehicles against

Discount on new vehicle: Vehicle manufacturers will be advised to give 5% discount on new vehicles against a scrapping certificate

Fee waiver: Registration fees may also be waived for purchase of new vehicle against the scrapping certificate

Can yield between ₹35,000 & ₹40,000 for four-wheelers (after scrapping cost and margins)

₹1 to ₹1.5 lakh for trucks

Up to ₹15,000 for two-wheelers

ORGANIZED SCRAPPING

MPRL procures obsolete vehicles and white goods from individuals, government-facilitated auctions and insurance firms, among others

In the next step, the items not fit for recycling are disassembled and the remaining metal scrap is shredded

Heavy-duty magnets are utilized to sort the ferrous metal, such as iron, from the non-ferrous metal, such as aluminium and copper

The ferrous/non-ferrous and other remaining parts are sold through e-commerce portal

UNORGANIZED SCRAPPING

A huge market but vehicles are simply disassembled and are typically not recycled at source but are sold to scrap dealers

Some of them are sent to dump yards

ABANDONED VEHICLES

No dedicated policy to scrap abandoned vehicles yet

Once confiscated, such vehicles find place at police stations or open grounds

INTRODUCTION

Technical textiles is the emerging area for investment in India. The potential of technical textile in India is still untapped. Technical textiles represents a multi-disciplinary field with numerous end use applications. The production of different items of technical textile industry has been slowly but steadily increasing in the country. However there is lack of information regarding the status of the technical textile industry . The awareness on technical textiles among prospective entrepreneurs and consumers is very less. Hence entrepreneurs require details like market size , domestic and global scenario of technical textiles, details of govt schemes, list of existing technical textile manufacturers, importers and exporters , details of technical textile machinery manufacturers, etc. There is a need for an exclusive website for technical textiles.

This website endeavours to provide all the above information at one place.. This website apart from providing above details will also link all the stake holders at one place and also provide link to all Centres of Excellence of technical textiles and will be one stop shop for accessing
